AN OPPORTUNITY FOR ACTIVE MANAGEMENT IN A GROWING MARKET

Favoured for their competitive pricing and ease of trading, Exchange-Traded Funds (ETFs) have been steadily increasing in popularity. As more advisors and investors turn to ETFs to form a part of their investment plan, the demand for active management within the structure has increased. Actively managed ETFs can help meet this demand as they have the power to differentiate client portfolios by uncovering opportunities beyond the benchmark.

INTRODUCING DYNAMIC iSHARES ACTIVE ETFs

Dynamic Funds and BlackRock Asset Management Canada Limited have joined forces to bring together the strength of both firms' capabilities to deliver active ETFs. This new product suite combines high-conviction portfolio management with proven operational expertise.

Dynamic iShares Active ETFs bring to market a line-up of compelling solutions that complement advisory business models while meeting the needs of Canadian investors. Together, they offer:

Legitimately Active Management®

Dynamic's high-conviction Portfolio Management teams leave no stone unturned to add real differentiation to investment portfolios.

Trading flexibility and efficient execution

iShares ETF platform offers advisors the ability to trade throughout the day and perform bulk trades.

Competitive pricing

Access the benefits of active management at advantageous prices through the flexibility of the ETF structure.

WHY DYNAMIC?

LEGITIMATELY ACTIVE MANAGEMENT

Dynamic Funds is an industry leader in bringing timely, innovative and active solutions to the marketplace. Through Legitimately Active Management, Dynamic strives to add substantial value and true differentiation to investment portfolios.

WHY iSHARES BY BLACKROCK?

GLOBAL ETF LEADERSHIP

BlackRock brings more than 18 years of innovation and expertise to its clients by delivering first-class operational standards and execution for ETFs. iShares ETFs are backed by the technology and resources of BlackRock, which provides unparalleled trading flexibility and support.

DYNAMIC iSHARES ACTIVE ETFs

	Dynamic iShares Active Tactical Bond ETF	Dynamic iShares Active Crossover Bond ETF	Dynamic iShares Active Preferred Shares ETF	Dynamic iShares Active Investment Grade Floating Rate ETF
Ticker symbol	DXB	DXO	DXP	DXV
Overview	A bond portfolio that provides broad exposure primarily to the North American fixed-income markets combined with active risk and tactical duration management. Exposure will be obtained indirectly by investing in Dynamic Active Tactical Bond Fund ¹ .	Invests primarily in North American fixed-income corporate securities that are rated close to the line dividing investment grade and high-yield credit. Exposure to these types of securities will be obtained indirectly by investing primarily in the Dynamic Active Crossover Bond Fund ¹ .	Invests primarily in a diversified portfolio of preferred shares of Canadian-based businesses. Exposure to these types of securities will be obtained indirectly by investing primarily in the Dynamic Active Preferred Shares Fund ¹ .	Invests primarily in high-quality, Canadian investment-grade corporate bonds and uses interest rate swaps to generate a floating rate of income while providing capital protection as interest rates rise. Exposure will be obtained indirectly by investing in the Dynamic Active Investment Grade Floating Rate Fund ¹ .
Key reasons to own	<ul style="list-style-type: none"> • An active approach to bond investing across a spectrum of the fixed-income universe, seeking to maintain an average credit rating of A- or above across the portfolio. • A diversified portfolio that actively manages duration, yield structure, foreign exchange, credit spread and security selection. • A simple and effective way to access institutional bond management. 	<ul style="list-style-type: none"> • Access a specific segment of the market that offers the potential for high-yield-like returns with less volatility. • A portfolio diversifier that can offer low correlations to traditional fixed-income securities. • Takes advantage of market dynamics that tend to surround upgrades to investment grade (rising stars) and downgrades from investment grade (fallen angels). 	<ul style="list-style-type: none"> • An active approach to preferred shares investing that seeks to add value over its benchmark. • Preferred shares can offer a consistent stream of tax-efficient income and diversification benefits. • Access to a team of Dynamic portfolio managers with considerable experience and expertise actively investing in the preferred share market. 	<ul style="list-style-type: none"> • Offers a floating rate of income linked to Canadian short-term interest rates. • Generates a competitive yield relative to other short-term interest products. • Helps diversify traditional fixed-income portfolios to lower overall interest rate sensitivity.

¹ The Portfolio Manager is lead portfolio manager of the underlying Dynamic mutual fund that the Dynamic iShares Active ETF invests in.

² Series O units of these Funds are available for purchase exclusively by Dynamic iShares Active ETFs and are not otherwise available for purchase.

³ Portfolio attribute targets shown are guidelines only. Actual allocations and holdings may vary due to changes in market conditions and other factors.

⁴ Denominated in US\$. It is not expected that the portfolio will initially have any foreign currency other than US\$.

⁵ Excludes government bonds and index participation units.

⁶ Dividend Reinvestment Plan ("DRIP") program is available, allowing investors to easily benefit from compounding their distributions. All Dynamic iShares Active ETFs are eligible for the Dividend Reinvestment Plan, provided that the Advisor's brokerage firm supports participation in the DRIP. Cash distribution rates are declared at the sole discretion of the manager and may be changed periodically without notice to investors. While achieving consistency from period to period is one factor in determining a given cash distribution rate, other factors, including the amount of income earned by the fund, may affect the cash distribution rate declared in a given period.

⁷ Quality at a reasonable price

⁸ Excludes U.S.
